FurzeClan Camp

A rather steep ditch with burrows as dens, but it had a safe path of getting up or down.

Fresh kill: 0/28

-Season-
Greenleaf

-Weather-
Clear skies
87 degrees
20% chance of rain

Leader's Den

A small burrow with roots poking out and a soft moss bedding.

Deputy's Den

Similar to the Leader's den.

Elders' Den

A large burrow with many soft nests. Sometimes but very rarely, there's a leak of fresh water.

Warriors' Den

Rather small for the amount of Warriors, the dirt often collapses at the back of the den, one Warrior even died from suffocation long ago.

Apprntices' Den

There is no nesting, it is very scratchy and uncomfortable heat covers the den.

Medicine Den

A dried bush for a den. It's thorny and dry, and has limited herbs.

Nursery

Few Queens and **very** few kits. Just a ditch with no protection whatsoever, a very vulnerable place.
